

CALF STARTER (8016)

Kelley's Calf Starter is an 18% protein, sweet feed mix, consisting of rolled grains and concentrated pellets, fortified with vitamins and minerals. So whether you are feeding for veal, beef production, replacement heifers or replacement bulls, Kelley's Calf Starter will help get your calf off to a good start.

FEEDING DIRECTIONS:

VEAL & BEEF PRODUCTION

From day 1 to 3 months, or desired butcher weight, provide calf with milk replacer as directed by manufacturer. At 2 weeks, introduce Kelley's Calf Starter, along with high quality hay, free choice, until calf begins to eat. The calf may nibble for a few days. Then it will begin to consume more. Offer Kelley's Calf Starter free choice or feed 5-6 lbs a day, whichever you prefer. At 3 months of age, gradually change over to Kelley's Calf Grow. Provide clean water. If at any point, the calf begins to scour; reduce amount of grain and/or milk replacer.

REPLACEMENT HEIFERS

From day 1 to 3 months, provide calf with milk replacer as directed by manufacturer. Provide Kelley's Calf Starter at a rate of 6-8 lbs a day along with good quality hay. Any changes in the ration should be made gradually. When calf is 3 months to 600 lbs feed Kelley's Calf Grow, wean it and gradually change ration over to Kelley's Cattle Complete, Kelley's No. 2 Fattener or Kelley's 4-Way Mix Sweet Feed. Provide clean water at all times. If at any point, the calf begins to scour; reduce amount of grain and/or milk replacer.

GUARANTEED ANALYSIS

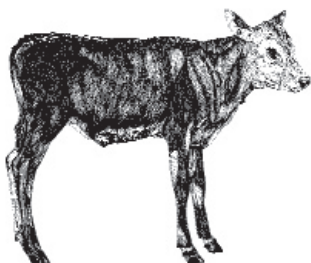

CRUDE PROTEIN	Not Less Than	18.00 %
CRUDE FAT	Not Less Than	2.50 %

INGREDIENTS

Steamed Rolled Barley, Dehulled Solvent Extracted Soybean Meal, Wheat Bran, Steamed Rolled Corn, Cane Molasses, Steamed Rolled Oats, Calcium Carbonate, Mono-Dicalcium Phosphate, Sodium Chloride, Potassium Chloride 52%, Phosphoric Acid, Hydrolyzed Animal and Vegetable Fat Blend, Propionic Acid, Choline Chloride, Vitamin C-Coated Ascorbic Acid, Magnesium Oxide, Manganese Oxide, Calcium Iodate, L-Lysine Hydrochloride, Zinc Oxide, Niacin Supplement, Vitamin A Supplement, dl-Alpha Tocopherol Acetate, Menadione Sodium Bisulfite Complex, Folic Acid, Calcium Pantothenate, Thiamine Mononitrate, Ferrous Sulfate, Sodium Selenite, Copper Oxide, Riboflavin Supplement, Vitamin D3 (d-Act. An. Sterol), Pyridoxine Hydrochloride, Vitamin B12 Supplement, Cobalt Carbonate.

FEATURES

HIGH QUALITY PROTEIN SOURCES
muscle & nervous system

HIGH QUALITY ENERGY SOURCES

NUTRITIONALLY BALANCED VITAMINS, MINERALS & AMINO ACIDS

BENEFITS

Needed for building body tissue, skin, hair,

Energy is fuel which enables the body function
Needed for growth & repair of body tissues

Needed for metabolism, skeleton formation, nerves, body fluid regulation & enzymes
