

FOAL & BROOD MARE (8042)

Kelley's Foal & Brood Mare is a 16% protein, grain pellet that was designed to be fed to both the lactating mare and the young foal. Kelley's Foal & Brood Mare pellet is an excellent product that should be fed during gestation, to nursing foals and weanlings.

The mare should be fed the amount necessary to achieve a controlled weight gain of about 1 lb of body weight per day. Feeding level should not exceed 1.5% of the mare's body weight.

When the foal is about 3 weeks of age, it might begin to nibble Kelley's Foal & Brood Mare, hay or pasture. While it is recommended to creep feed the foal, you may feed the foal alongside the mare; the choice is yours.

Feeding Directions: Feed Kelley's Foal & Brood Mare, daily, at the recommended amount shown below, per 100 lbs of body weight per head, divided equally per feeding. In addition, feed good quality alfalfa hay, at the rate of 1% per 100 lbs of body weight.

Nursing Foals $\frac{1}{4}$ to $\frac{1}{2}$ lb Weanlings $\frac{3}{4}$ to 1 lb Mares in early lactation $1\frac{1}{4}$ to $1\frac{3}{4}$ lbs

INGREDIENTS

Ground Sorghum, Ground Corn, Wheat Bran, Dehulled Solvent Extracted Soybean Meal, Cane Molasses, Calcium Carbonate, Mono-Dicalcium Phosphate, Sodium Chloride, Potassium Chloride 52%, Choline Chloride, Vitamin C-Coated Ascorbic Acid, Propionic Acid (a preservative), Manganous Oxide, Magnesium Oxide, Calcium Iodate, Zinc Oxide, Niacin Supplement, Vitamin A Supplement, dl-Alpha Tocopherol Acetate, Menadione Sodium Bisulfite Complex, Folic Acid, Calcium Pantothenate, Thiamine Mononitrate, Ferrous Sulfate, Sodium Selenite, Copper Oxide, Riboflavin Supplement, Vitamin D3 (d-Act. An. Sterol), Pyridoxine Hydrochloride, Vitamin B12 Supplement, Cobalt Carbonate.

FEATURES

HIGH QUALITY PROTEIN SOURCES

HIGH QUALITY ENERGY SOURCES

NUTRITIONALLY BALANCED VITAMINS & MINERALS

PELLETED FORM

BENEFITS

Needed for building body tissue, skin, hair, muscle & nervous system

Energy is fuel which enables the body to function
Needed for growth, milk production & repair of body tissues

Needed for metabolism, skeleton formation, nerves, body fluid regulation & enzymes

Easy handling; more nutrients per volume; less waste for picky eaters
