

GOLDEN AGE SENIOR HORSE RATION (8039)

Kelley's Golden Age Senior Horse Ration is a 14% protein, complete, feed that is designed especially for the mature horse's nutritional needs. Kelley's Golden Age Senior Horse Ration is formulated with two different pellets, one composed of fine-ground hay and the other a pre-cooked, extruded grain nugget; making the feed highly digestible. Kelley's Golden Age Senior Horse Ration also has digestive enzymes/lactobacillus, chelated minerals and canola oil, packing each pellet with nutrition.

Consideration for mature horses with teeth problems has been addressed making Kelley's Golden Age Senior Horse Ration easy for the mature horse to chew. Horses without teeth problems will still enjoy the texture and taste.

Feeding Directions: Feed daily amount by weight. Good quality roughage can accompany Kelley's Golden Age Senior Horse Ration (approx. 4-5 lbs per feeding). Reduce Kelley's Golden Age Senior Horse Ration by 1 lb for each 2 lbs of hay. These are general feeding guidelines and may be altered to meet your individual horse's needs.

	800 lbs	900 lbs	1000 lbs	1100 lbs	1200 lbs
Maintenance	12 lbs	13 lbs	14 lbs	15 lbs	16 lbs

COOKED &
EXTRUDED GRAINS

CANOLA OIL

INGREDIENTS

Suncured Alfalfa Meal, Wheat Bran, Ground Corn, Ground Sorghum, Cane Molasses, Dehulled Solvent Extracted Soybean Meal, Wheat Flour, Steamed Rolled Barley, Canola Oil, Calcium Carbonate, Sodium Chloride, Phosphoric Acid, Hydrolyzed Animal and Vegetable Fat Blend, Potassium Chloride 52%, Propionic Acid (mold inhibitor), Magnesium Amino Acid Chelate, Iron Oxide, Choline Chloride, Vitamin C-Coated Ascorbic Acid, Lactobacillus/Digestive Enzyme, Calcium Amino Acid Chelate, Zinc Amino Acid Chelate, Manganous Oxide, Calcium Iodate, Copper Amino Acid Chelate, Iron Amino Acid Chelate, Zinc Oxide, Niacin Supplement, Vitamin A Supplement, dl-Alpha Tocopherol Acetate, Menadione Sodium Bisulfite Complex, Folic Acid, Calcium Pantothenate, Thiamine Mononitrate, Cobalt Amino Acid Chelate, Sodium Selenite, Ferrous Sulfate, Copper Oxide, Riboflavin Supplement, Cobalt Carbonate, Vitamin D3 (d-Act. An. Sterol), Pyridoxine Hydrochloride, Vitamin B12 Supplement, Manganese Amino Acid Chelate.

BENEFITS

Needed for building body tissue, skin, hair, muscle & nervous system

Energy is fuel which enables the body to function

Needed for metabolism, skeleton formation, nerves, body fluid regulation & enzymes

Improved digestion; more nutrients reaching the small intestines

Minerals attached to proteins making them more bioavailable to the horse

Easy to chew; improved carbohydrate digestion

Improved skin & coat
