

Diamond Ratite Starter

(3172, 3173)

DIAMOND RATITE STARTER is an 18% crude protein ration formulated with high quality protein sources, high quality energy sources, and added vitamins and minerals balanced to meet the nutritional requirements of a young bird. Our RATITE STARTER also contains yeast culture to aid in the digestion and assimilation of nutrients making it a more highly digestible feed. DIAMOND RATITE STARTER can be fed to ostriches, rheas and emus. Ratite is the family name of the flightless birds. DIAMOND RATITE STARTER is offered in either pellet (3172) or crumble (3173) form.

FEEDING DIRECTIONS

Feed free choice until the bird reaches 4 months. Then begin switching over to RATITE GROWER.

MANAGEMENT TIPS

Keep fresh feed available, the amount they will clean up daily.
Do not overfeed or underfeed and avoid feed wastage.
Limit feed if birds are overweight.
Feed troughs should be filled from 1/2 to 2/3 full.
Make sure birds have an ample supply of fresh, clean water daily.
