

## FEATURES

## BENEFITS

<b>Pellets</b>	Can be fed on ground with less feed wastage than mash form
<b>Amino Acid Balanced with Quality Proteins</b>	Provides for least cost feed and maximum egg production
<b>High-Energy Grains</b>	Allows for maximum egg production
<b>High-Quality Calcium &amp; Phosphorus Source</b>	Needed for eggshell and skeleton formation
<b>Balanced Vitamins &amp; Trace Minerals</b>	Allows for the genetic potential of the hen to lay eggs
<b>Corn/Suncured Alfalfa Hay</b>	Provides the xanthophyll needed for the yellow coloration of egg yolk
<b>Propionic Acid</b>	Aids in the control of mold growth

### ALL AGE PELLETS

for Laying Hens

40105

### SUGGESTED FEEDING PROGRAM

- 1 After 5% production, feed ACE-HI ALL AGE PELLETS for maximum production and livability.
- 2 Plan on using 1/4 lb of ACE-HI ALL AGE PELLETS per hen per day. However, due to the size of hen, time of year (summer vs. winter), age of hen and laying cycle, the feed consumption may vary.

### IMPORTANT

- \* Keep fresh feed available, what they will clean up daily.
- \* Do not overfeed or underfeed and avoid feed wastage.
- \* Feed troughs should be filled from 1/2-to 2/3-full or feed on ground.
- \* Provide fresh, clean water daily.

### FEEDER SPACE REQUIRED PER 100 BIRDS

<b>Age of Hens</b>	<b>Feeder Space to Allow</b>
12 weeks and older	40 ft or four 5-foot feeders

### FEEDING ON GROUND

12 weeks and older      Feed only what will be cleaned up daily.
