

**STARTER/GROW CRUMBLE
(8004)**

Kelley's Starter/Grow Crumble is a formulated 19% protein mash that was designed to be fed to baby chicks as the sole ration, whether they are being raised as broilers or laying hens.

BROILER PROGRAM

From day 1 to 9 weeks, or until desired weight, feed free-choice. Or feed Kelley's Broiler Crumbles for a faster finish from 6 weeks until desired butcher weight. Make sure there is fresh water available at all times, and make sure feeder is clean and clear of debris.

EGG PRODUCTION PROGRAM

Feed Kelley's Broiler Crumbles from day 1 to 16 weeks. At 16 weeks begin changing over to Kelley's All-Purpose Lay Ration and continue feeding the lay pellet throughout the peak egg-laying cycle. Make sure there is fresh water available at all times, the feeder is clean and clear of debris, and there is a source of heat during cold weather for the chicks.
