CALCIUM CARBONATE

Needed for eggshell and skeleton formation

Excellent Source of Xanthophyll

ALFALFA MEAL

A naturally occurring pigment that gives the yellow coloration to egg yolks, poultry fat, skin, shanks and feed of birds

Star Milling Co.

ALL-PURPOSE LAY PELLETS

802

STAR ALL-PURPOSE LAY PELLETS are a 16% protein feed designed to be fed as a complete feed to pullets or to lay hens to enrich their egg production. Feed free choice starting around 16 to 20 weeks of age. STAR ALL-PURPOSE LAY PELLETS will meet all their nutritional needs throughout their egg-laying production and need not be supplemented with any other feed.

Clean, fresh water and feed should be provided daily.
