Feeding Directions

Feed this diet to fish 2 to 3 times each day. Feed the amount fish readily consume within 15 minutes. The water temperature and size of fish will determine the amount to be fed.

Fish activity, water quality, water temperature, and stocking density should be considered prior to feeding.

Store in a cool, dry, ventilated location away from rodents and insects. Do not feed if moldy, spoiled, insect/rodent infested, or if feed has an uncharacteristic odor or appearance, as it may cause illness or death.
