Feeding Directions

Herd Bucks: Feed 1—2 lbs. per day in addition to the forage portion of the diet.
 Dry Does: Feed 1/2—1 lb. per day in addition to the forage portion of the diet.
 Dry Pregnant Does: Feed up to 2 lbs. per day in addition to the forage portion of the diet.
 Lactating Does: Feed 2—6 lbs. per day depending on the level of milk production, in addition to the forage portion of the diet.

Provide clean, fresh drinking water at all times. Store in a cool, dry, ventilated location away from rodents and insects. Do not feed if moldy, spoiled, insect/rodent infested, or if feed has an uncharacteristic odor or appearance, as it may cause illness or death. WARNING! - Do not feed to sheep. This feed contains added copper at levels that may be toxic if consumed by sheep.
