SEE FEEDING DIRECTIONS ON BAG: For Growing Gilts feed 7 to 8 lbs. per day. For Sows and Gilts 10 days before and 10 days after breeding feed 10-12 lbs. per day. During Gestation limit feed 5 lbs. during summer and 6 lbs. during winter. Forty days prior to farrowing, increase feed to 8 to 10 lbs. Ten days before and ten days after farrowing add wheat bran to prevent constipation. Full feed sows 10 lbs. per day ten days after farrowing to weaning. Always observe the body condition of sows and make feed adjustments as necessary. Store in a cool, dry, ventilated location away from rodents and insects. Do not feed if moldy, spoiled, insect/rodent infested or has an uncharacteristic odor or appearance as it may cause illness or death.

**WARNING!** - Do not feed to Sheep. This feed contains added copper at levels that may be toxic if consumed by sheep.

**Net Wt: 50LB**
